in learning in a time of division educators share the ways in which their practice has enshrined viable ideas about how to bridge divisions and facilitate learning thereby contributing to reuniting a polarized world

through 15 mystery stories this book memorably illustrates science concepts for students and reinforces the value of learning science through inquiry each mystery presents opportunities for students to create questions form hypotheses test their ideas and come up with explanations focused on concepts such as periodic motion thermodynamics temperature and energy and sound these mysteries draw students into the stories by grounding them in experiences students are familiar with providing them with a foundation for classroom discussion and inquiry

there is much discussion of multiculturalism in education this is especially true of multicultural literature for children and young adults the rise of multicultural literature is a political rather than a literary movement it is a movement to claim space in literature and in education for historically marginalized social groups rather than one to renovate the craft of literature itself multicultural literature has been closely bound with the cause of multiculturalism in general and thus has been confronted with resistance from conservatives this book discusses many of the controversial issues surrounding multicultural literature for children and young adults the volume begins with a look at some of the foundational and theoretical issues related to multicultural literature the second part of the book addresses issues related to the creation and critique of multicultural literature including the authorship of such works and the role of the reader in determining whether or not a work is multicultural the third looks at the place of multicultural literature in the education of children and young adults throughout its discussion the book makes extensive references to a large body of multicultural fiction and provides a thorough review of research on this important topic

this book helps new faculty graduate students and academics improve their writing and get published it covers writing journal

articles dissertations grants and more authors share their experiences discussing voice audience planning drafting revision style and the publication process

in this essay collection scholars in the area of early literacy provide concrete strategies for achieving excellence in literacy instruction the collection presents current research based information on the advances and refinements in the area of emerging literacy and the early stages of formal instruction in reading and writing following a foreword alan farstrup and an introduction dorothy s strickland and lesley mandel Morrow chapters in the collection are 1 beginning reading and writing perspectives on instruction william h teale and junko yokota 2 becoming a reader a developmentally appropriate approach susan b neuman and sue bredekamp 3 literacy instruction for young children of diverse backgrounds kathryn h au 4 enhancing literacy growth through home school connections diana h tracey 5 children s pretend play and literacy anthony d pellegrini and lee galda 6 talking their way into print english language learners in a prekindergarten classroom celia genishi donna yung chan and susan stires 7 organizing and managing a language arts block lesley mandel Morrow 8 classroom intervention strategies supporting the literacy development of young learners at risk dorothy s strickland 9 teaching young children to be writers karen bromley 10 phonics instruction margaret moustafa 11 reading aloud from culturally diverse literature lee galda and bernice e cullinan 12 fostering reading comprehension linda b gambrell and ann dromsky 13 assessing reading and writing in the early years bill harp and jo ann brewer 14 sign of the times technology and early literacy learning shelley b wepner and lucinda c ray and 15 still standing timeless strategies for teaching the language arts diane lapp james flood and nancy roser nka

two experts on education offer a rich and diverse selection of children s literature and teaching strategies for the k 8 mathematics classroom taking advantage of quality motivating literature during mathematics instruction pays off especially when teachers and media specialists work together to convey crucial mathematical concepts and standards mathematics in the k 8 classroom and library shows you how it s done after an introduction to the national council of teachers of mathematics s nctm principles and process standards each remaining chapter is devoted to an nctm content standard the book offers engaging research based strategies and

booklists of specific titles that together can be used to increase student achievement the strategies suggested here provide a hands on student centered focus that allows students to make connections with prior learning personal experiences and good books both the recommended children s books and the activities will appeal even to reluctant readers and students for whom mathematics might be a challenge each chapter includes an extensive annotated list of texts dozens of hands on activities handouts and writing prompts

cd rom contains link to dynamic database driven website
